### Google Maps Terrain Downloader Crack + Activator [32|64bit]

Google Maps Terrain Downloader Crack Free Download is a lightweight Windows utility designed to help you download terrain map images from Google Maps in only a few steps. Manual coordinate sets need to be provided. It boasts a clean and straightforward interface that gives users the possibility to create a new project by specifying the name and saving directory. In order to carry out the downloading process, you are required to specify the coordinates for the left and right longitude, top and bottom latitude, and pick the zooming level. The tool doesn't offer support for a global map from where you can select the location, so you need to manually insert the coordinates in the dedicated dialog. Google Maps Terrain Downloader 2022 Crack lets you stop the downloading process with just one click, and you can also view a log which contains details about the performed operations and possible errors. Set zoom level and save to picture.

---

What's more, you can select a default saving path and zooming level, configure proxy settings, convert degrees, minutes, and seconds to degrees, as well as open the downloaded maps with the built-in map viewer which comes packed with limited features, as it lets users switch to a full screen mode and open a project. By default, the grabbed images are saved to PNG file format, and you can also merge the selected maps into a single BMP file, download a single photo, or make the program redownload failed items. During our testing we have noticed that the utility accomplishes a task very quickly and without errors throughout the entire process. It manages to remain light on the system resources, so it doesn't burden the overall performance of the computer, nor interfere with other programs' functionality. On an ending note To sum things up, Google Maps Terrain Downloader offers a simple software solution when it comes to downloading terrain map images on the breeze. ...
